

## Instructions for Signing

Please carefully read these instructions for signing and witnessing your Will. You must follow them exactly.

### **1. Select Two Witnesses.**

They can be any two people, as long as they fit the following criteria:

1. They must be over 19 years old and of sound mental capacity.
2. They should not be your spouse.
3. They should not be anybody who is included in your Will.
4. They should not be the spouse or children of anybody who is included in your Will either.

A good suggestion for witnesses would be someone like a neighbour or an acquaintance or a co-worker.

### **2. Get Together for the Moment of Signing.**

You and your two witnesses must be physically present and together for signing and witnessing.

Print your Will, have it ready, and invite your witnesses over.

### **3. Turn to the Last Page of the Will.**

All of the signing and witnessing is done on the last page.

### **4. Fill out the Date Information.**

Print the date information in the "month", "date", and "year" fields.

### **5. You Sign the Will, in front of the Witnesses.**

Sign in the signature field that has your name. Both witnesses must watch you do it.

### **6. The Witnesses Sign, and fill out their Information.**

Then pass the Will to the witnesses.

Each of them 1) signs in a witness signature field, and 2) prints their personal information in the "Name", "Address", and "Occupation" fields that are under their signature.

That's it! You are done. Your Will is valid. Now please read our "Instructions for Storing your Will" document.
